

*Enemion biternatum*

False rue anemone (page 1 of 1)

Flowers are [solitary](#) or in twos and threes.

The [perfect](#) flowers are white. Each flower has five petal-like [sepals](#), but no true [petals](#).

The leaves are [trifoliate](#) and each [leaflet](#) is three-lobed. The middle leaflet has a longer [petiolule](#) than the two side leaflets.

The fruits are beaked [follicles](#) (arrow).

False rue anemone grows in groups. Individual plants are 4 to 12 inches tall.
